

Arjun S.A

Full Stack Developer | MERN & MEAN

Nagercoil | Ph:8778799891 | saarjun04@gmail.com | [Linkedin](#) | [Portfolio](#) | [GitHub](#)

Summary

Passionate Full-Stack Developer with expertise in **React.js, Angular, Svelte, Redux, Node.js, Express.js, MongoDB, and GraphQL**. Skilled in building responsive, user-friendly web applications with optimized performance and seamless UI/UX. Experienced in **state management, RESTful/GraphQL API integration, and database optimization**. A fast learner and collaborative team player, eager to contribute to innovative web solutions.

Skills

Frontend Development: HTML | CSS | Bootstrap | Tailwind CSS | JavaScript (ES6+) | React.js | Redux | Angular | NgRx | Svelte

Backend Development: Node.js | Express.js | MongoDB | Mongoose | RESTful APIs | GraphQL

Team Projects

Vehicle-Portal (Insurance): [Live](#)

A web-based portal designed for customers to purchase and manage vehicle insurance policies.

Tech Stack: Angular, Node JS & Express JS, GraphQL, SQL.

Individual Contributions

Vehicle-Portal-Shell (micro-frontend-architecture):

Developed a shell application using micro-frontend architecture to manage redirection between the legacy vehicle portal and the new portal.

Tech Stack: Angular, Apollo client, GraphQL.

Functionality: Based on user test data (car or motorbike), the shell dynamically routes requests to the appropriate portal, ensuring seamless navigation without disrupting the user experience.

Professional Experience

Junior Full-stack Developer, Gpty soft

Jun 2025 – Present | Kuzhithurai

- Worked as part of an international team through Gptysoft, collaborating on insurance and financial web applications.
- Developed and maintained MERN/Angular-based modules, including vehicle insurance portal features.
- Collaborated with international team members in English, actively participating in daily scrum meetings, sprint planning, and demos.
- Built a backend email notification module using Node.js and Express, enabling automated email alerts to the company for key system events.
- Gained experience in agile methodology, remote collaboration, and clear technical communication.

Frontend Developer Intern, Spangles Infotech

Oct–Dec 2024 | Nagercoil

- **Developed reusable React components** for an Office Management System, improving **UI consistency**.
- **Worked with Git & GitHub**, collaborating with backend developers for seamless integration.
- **Enhanced responsiveness** of dashboards using **Tailwind CSS**

Education

Bachelor of Arts, MS University

2019-2022 | Nagercoil

Certifications

- Certification for the completion of MERN stack development from Spangles Infotech, Nagercoil
- Certification for the completion of Frontend development from KARKA software academy, Nagercoil
